

FINANCIAL INFORMATION

As a courtesy to our patients, we will file your insurance claims for services provided. We make an effort to be familiar with insurance and call for specific podiatry benefits, when necessary. If the insurance company does not respond or reimburse Dr. Gurvis within 45 days you may be billed. Patients are also responsible for any balance not paid by insurance.

Payment is expected the day of service for those without insurance or for procedures that are not covered by insurance.

A \$15 service fee will be charged for a returned check.

If an account is turned over to collection a \$30 service fee will be added to that account.
